

The Unique & Powerful CSR Programme

Transform Your Workplace with Eco-Enzyme

Turning Food Waste into Environmental Impact

- Low Cost, High Impact
- ESG Aligned
- Reduce Organic Waste
- HRDC Claimable
- Employee Engagement

ABOUT THE PROGRAMME

In today's world, organizations are expected to contribute not only to business growth but also to **environmental sustainability and social responsibility**. Many CSR initiatives are costly, difficult to sustain, and challenging to measure.

The Eco-Enzyme CSR Programme offers a practical solution by transforming everyday fruit and vegetable waste into Eco-Enzyme — a natural, multi-purpose liquid that benefits homes, workplaces, communities, and the environment. This hands-on programme combines **environmental education, employee engagement, ESG alignment, and measurable CSR outcomes**, making it one of the most sustainable and impactful CSR initiatives available today.

WHY ORGANISATIONS CHOOSE THIS PROGRAMME

- ✓ Low Cost, High Impact
- ✓ Supports ESG & Sustainability Goals
- ✓ Enhances Employee Engagement
- ✓ Reduces Organic Waste
- ✓ Generates Measurable CSR Outcomes
- ✓ Creates Long-Term Environmental Impact
- ✓ Suitable for Corporates, NGOs, Schools & Communities
